TO WHOM IT MAY CONCERN

My relationship with Vision started in 2017 when we first met in Athens, Greece and since then, have administered and operated successfully with them, four more congresses, as the Official Exhibition and Service contractor for this event.

Throughout all these years, Vision has maintained a high level of professionalism, dedication, and commitment to quality. They have helped cultivate a collaborative environment, which resulted in expeditious resolution to issues as they arose.

The work carried out and the services provided, along with their decisive engagement, has made World Lab/Euromedlab 2023 in Rome another success story.

Once again Vision has managed to successfully navigate through very difficult processes and obstacles on this project, and they always did so with a positive attitude. The ability of every team member within Vision to change gears on a moment's notice was greatly appreciated by myself and all those involved directly with the congress. One can only praise Vision for these attributes, and I can thoroughly confirm that after Athens, Barcelona and Munich, Rome has been the best work carried out so far for by them!

I strongly recommend Vision to anyone that requires and appreciates a company who takes over ownership of a project, solves problems, and provides a level of customer service that goes above and beyond the normal expectations of clients.

Congratulations once again to you and your team, keep up the exemplary work you provide, and thank you for your long-term commitment to the industry overall.

Sincerely,

Stefano Montalbetti
