Barcelona, 24 May 2007

During the recent Final Four held in Athens, Greece, we had the pleasure to closely work with the staff of VISION on the above mentioned event.

From day one, VISION demonstrated clear planning, strong communication and a genius for flexible and innovative designs. Despite the short lead-time Euroleague had to impose on VISION, they were able to deliver outstanding quality to ensure all our expectations were met.

VISION consistently demonstrated professionalism and experience, foreseeing any possible problems that might arise.

It was a great pleasure to work with them and therefore do we not have any reservations in recommending their services to any other company planning an international event in Greece.

Sincerely,

A handwritten signature in black ink, appearing to read "Pedro Galvan", written over a horizontal line.

Pedro Galvan
