

Letter of Recommendation

August 20, 2024

Dear Peter,

The 8th WoCoVA was held from 17 to 19 April 2024 in the Prague Congress Centre in the city of Prague in the Czech Republic. The World Congress on Vascular Access (WoCoVA) is the biennial congress where the top specialists on vascular access from all over the world come together to share and discuss the latest research and knowledge.

At the 8th WoCoVA, Vision was involved in different steps of the organization, but most importantly for the development, building, maintaining and dismantling of the exhibition area. WoCoVA would like to thank Vision for its pro-active support from the initial phase till completion and evaluation. Also, the fast response time regarding questions and action was strongly valued by WoCoVA.

The exhibition area looked great with high quality bespoke booths and shell schemes. The setting up the exhibition area was done in a professional way respecting the timings that were agreed. Whenever there was an issue or something extra was needed, Vision was always there to solve it.

WoCoVA would like to thank you, Peter, and your employees for the great and professional support that led to a very professional exhibition area. Your support has helped to make the 8th WoCoVA a success. We can recommend Vision to everyone that needs professional support around exhibition management and booth building.

Kind regards,

Toine Hulshof
Managing Director GloVANet/WoCoVA
