

## Letter of Recommendation

Dear Peter,

June 10, 2026

With this letter, we would like to express our sincere appreciation for the excellent support provided by Vision to the WoCoVA organisation with regard to the exhibition area of the 9th World Congress on Vascular Access (WoCoVA), held from 15–17 April 2026 at the Valencia Congress Centre.

The World Congress on Vascular Access (WoCoVA) is a biennial international congress where leading vascular access specialists from around the world come together to share and discuss the latest research, innovations, and best practices in the field.

For the 9th WoCoVA, Vision played a key role in the preparation and execution of the exhibition area. Their responsibilities included developing the exhibition floor plan, creating and managing the exhibitor portal, direct communication with sponsors regarding exhibition-related matters, overseeing the set-up of the exhibition, providing on-site support during the congress, and coordinating the dismantling of the exhibition area.

WoCoVA greatly appreciated Vision's proactive approach throughout the entire process, from the initial planning phase through to completion and evaluation. Their responsiveness and ability to act swiftly on questions and requests were particularly valued.

The exhibition area was at a very high standard, featuring high-quality bespoke booths and shell scheme constructions. The installation was carried out professionally and in full accordance with the agreed timelines. Whenever challenges arose or additional requests were made, Vision responded promptly and effectively.

We would like to extend our sincere thanks to you, Peter, and your entire team for your dedicated and professional support. Your contribution was instrumental in delivering a highly successful and professional exhibition environment and congress. We would confidently recommend Vision to any organisation seeking reliable and expert support in exhibition management and booth construction.

Kind regard,

Toine Hulshof  
Managing Director GloVANet/WoCoVA
